PURPOSE

This Area Plan for Aging Services (Area Plan) outlines the scope of aging related services provided by the Area Agency on Aging (AAA) with funding from the Virginia Department for Aging and Rehabilitative Services (DARS). The Area Plan is based on a comprehensive assessment of the demographic characteristics and needs of the older population in the AAA's planning and service area (PSA). AAAs are required to submit their Area Plans to DARS for review and approval.

The Area Plan serves as a roadmap for the AAA's management, administration, service system development, service delivery, and advocacy efforts during the planning period. It aligns services with the principles of the Older Americans Act (OAA), including:

- Promoting and sustaining the independence and dignity of older individuals, particularly those capable of self-care, through home-based services and community support.
- Removing individual and social barriers to economic and personal independence for older individuals.
- Supporting a continuum of care, including long-term care, family support, and community-based services that help older adults live in their homes and communities.
- Ensuring older individuals have the freedom to manage their own lives, can actively participate in planning the services provided for their benefit, and are protected against abuse, neglect, and exploitation.

In developing the Area Plan, the AAA identifies the unique needs of the older population in their community, evaluates the effectiveness of existing services, and sets priorities for current and future service delivery. The Area Plan outlines a broad range of services, such as nutrition programs, transportation, caregiver support, health promotion, and other supportive services. It also demonstrates how the AAA will coordinate services, maximize resources, and ensure accessibility and service availability for all older adults in the PSA.

The Area Plan is a public document, available for review by community members, stakeholders, and other interested parties. This open access promotes transparency by allowing the public to provide feedback and participate in decision-making regarding resource allocation and the prioritization of OAA services.

In Virginia, the Area Plan updated at least every four years to reflect changing community needs, service delivery methods, and funding priorities.

PART 1: BACKGROUND OF THE AREA AGENCY ON AGING

An Area Agency on Aging (AAA) is a local organization created pursuant to the Older Americans Act (OAA), which is designated within the Virginia Administrative Code and in contract with the Virginia Department for Aging and Rehabilitative Services (DARS) to develop and administer the Area Plan, as approved, for a comprehensive and coordinated system of services for older persons. Each AAA serves a specific geographic area, known as the planning and service area (PSA). An AAA's PSA is typically a city, county or a group of cities and/or counties. The AAA is tasked with ensuring that the needs of older individuals in that PSA are met through a range of services and programs.

The OAA intends that the AAA be the lead on all aging issues on behalf of all older individuals and family caregivers in the PSA. The AAA performs a broad range of functions, under the leadership and direction of DARS, aimed at developing or enhancing comprehensive, coordinated community-based systems that serve the PSA. Key AAA functions include:

- 1. Advocacy
- 2. Planning
- 3. Coordination
- 4. Interagency Collaboration
- 5. Information Sharing
- 6. Monitoring
- 7. Evaluation

Overall, AAAs serve as the central hub for aging services within their PSAs, ensuring that older adults have access to the resources they need to live independently and with dignity. Their activities are guided by the principles and requirements set forth in the OAA which emphasize the importance of local coordination, responsiveness to community needs, and service integration.

The	New River Valley Agency on Aging	_ is
	(Complete legal name of the agency)	
	□ local government	
	□ private nonprofit organization incorporated under the laws of Virginia	
	☑ joint exercise of powers organized pursuant to §15.2-1300 et seq. of the Code of Virgin	nia
	□ multipurpose agency	

MISSION STATEMENT

The New River Valley Agency on Aging provides support services, advocacy, resources, and information to aging and adults with disabilities, as well as to their caregivers, to enable them to achieve maximum independence, maintain their dignity, and strengthen their social support systems within their communities while enhancing their quality of life.

GOVERNANCE

While not included in the Area Plan, Area Agencies on Aging (AAAs) shall make the following documents available to the public upon request:

- 1. Governing Board Composition and Bylaws
- 2. Advisory Council Composition and Bylaws
- 3. Governing Board and Advisory Council Meetings, including Public Access

PUBLIC PARTICIPATION

State the process the agency used to receive public comment and review of the Area Plan and its amendments. Also describe how the AAA Advisory Council was consulted. **Include the date of the public participation period and how the public input influenced the Area Plan process:**

The New River Valley Agency on Aging staff began early in 2025 discussing the Agency services currently being provided and the possibility of offering other services with the Board of Directors and Advisory Council and in all meetings with the General Public. Clients receiving Home Delivered Meals, Congregate Nutrition and Transportation were provided a survey to gather data on the level of satisfaction but to also gain knowledge of any service needed in the service area that the Agency should include in this year's plan of services. A publicized public hearing will be held on June 17, 2025 to gather input from the General Public and the Advisory Council members. The Draft Area Plan will made available for review and comments until July 18, 2025. After this comment period all comments received will be documented and incorporated into the plan appropriately. The completed Area Plan Document will be provided to the Board of Directors for approval on July 24 and following the approval sent to DARS before the August 1, 2025 deadline.

SUMMARY SOURCE OF FUNDS

Each Area Agency on Aging (AAA) must prepare and develop an Area Plan for approval by the Virginia Department for Aging and Rehabilitative Services (DARS). Each plan must provide information and assurances that the AAA will, on the request of the State and for the purposes of monitoring compliance with this Act, (including conducting an audit), disclose all sources and expenditures of funds such AAA receives or expends to provide services to older individuals.

Disclose all funding amounts and sources below:

Estimated Funds for Fiscal Year 2026	
Source	Amount
Department for Aging and Rehabilitative Services	
Older Americans Act (include Nutrition Services Incentive Program or NSIP)	\$1,023,989.00
State General Funds	\$449,788.00
Virginia Insurance Counseling and Assistance Program (VICAP); including State	
Health Insurance Assistance Program (SHIP) and Medicare Improvements for Patients and Providers (MIPPA)	\$61,594.00
Respite Care Initiative	
Dominion Energy Senior Cool Care	\$4,000.00

PART 2: OBJECTIVES AND STRATEGIES

IDENTIFICATION OF POPULATIONS OF GREATEST NEED

Area Agencies on Aging (AAAs) must identify populations within their service areas who are at Greatest Economic Need (GEN) and Greatest Social Need (GSN) which should inform the Area Plan to improve service delivery, outreach and resource allocation.

Older Populations with Greatest Need	# of Older Individuals	Data Source(s)
Greatest Economic Need (GEN)		
At or below federal poverty	3,300	Weldon Cooper Center, DARS Intrastate FF
Poverty as further defined by the state		
Greatest Social Need (GSN)		
Physical and mental disabilities	11,520	Weldon Cooper Center
Language barriers	1,753	Weldon Cooper Center (reports 4.4%)
Cultural, social, or geographical isolation, including due to:		
Racial and ethnic status	2,749	Weldon Cooper Center (reports 6.9%)
Native American identity		
Religious affiliation		
Sexual orientation		
Gender identity or sex characteristics		
HIV status		
Chronic conditions		
Housing instability		
Food insecurity	5,180	Feeding America website (avg 13%)
Lack of access to reliable and clean water supply		
Lack of transportation	2,789	Coord. Human Services Mobility Plan (7%)
Utility assistance needs		
Interpersonal safety concerns		
Rural location	10,065	DARS Intrastate Funding Formula
Any other status that threatens the capacity of the individual to live independently		

 ∞ Revised March 2025 In reviewing the data above, provide a general description of the demographic characteristics of the planning and service area (PSA), with specific emphasis on populations of GEN and GSN. Note any data limitations.

The New River Valley Agency on Aging's Planning and Service Area is experiencing a steady growth in the older adult population. As of 2023, there were 39, 845 individuals aged 60 and above, accounting for 21.7% of the total population in PSA 4. All but Montgomery County and Radford City have an older adult population of over 25% of their total population. Over 10,000 of these citizens live in what is considered to be rural areas.

There continues to be minimal racial diversity with 93% of the older adult population age 65 and above indicating they are White, 3.3% indicating they are Black and 3.7% indicating they are Asian or some other racial group. 97.6% of older adults indicated that English is their primary language.

8.3% of adults over age 60 residing in the New River Valley are at the federal poverty level. Although not considered at the federal poverty level, many additional older adults on fixed/limited incomes, struggle to pay for utilities, food, medications, transportation, etc, as this is often conveyed during calls and visits with those seeking information, resources and services.

Regarding gender, the older adult population is comprised of 55% women and 45% men.

A Community Assessment Survey for Older Adults funded by the Department for the Aging and Disability Services and conducted by a national research team, found that 46% of the older adults they surveyed living in the New River Valley were found to have information access challenges in their service area. While the New River Valley Agency on Aging strives to utilize and maximize all available avenues and sources to reach older adults and their caregivers, this indicates a need to continue and strengthen our efforts through our Information and Assistance and Outreach work along with endeavors to reach caregivers in need of information and/or services. Because 53% of the survey respondents stated they had used public library services during the recent past this is a partnership that will be utilized more for outreach to help older adults obtain information needed.

The CASOA survey also indicates that affordable, accessible, safe housing is also an area that 48% of the respondents rated as a need. Although direct housing services are not provided by the Agency, continued efforts to work with other organizations who do work in this realm will be strengthened to connect older adults to them and to help with identifying and pursuing funding opportunities to expand these efforts.

UNMET NEEDS ASSESSMENT AND EVALUATION

The Area Agency on Aging (AAA) is required to submit objective, and where possible, statistically valid data on the unmet needs for supportive services, nutrition services, disease prevention and health promotion, family caregiver support, and multipurpose senior centers. The evaluations for each AAA must consider all services in these categories regardless of the source of funding for the services and provide evaluative conclusions based on the data. Unmet needs information can be collected from PeerPlace and any other information for unmet needs that can be identified.

Identify the source(s) of information or data on unmet needs and provide an overview of the information and data, including how that unmet needs information and data have informed the development of the Area Plan.

PeerPlace reporting and current waiting lists reveal the following unmet needs for individuals requesting supportive services and family caregiver support:

- Transportation 14
- Homemaker 222
- Respite 8

Disease Prevention and Health Promotion services, although there is no waiting list, are under-performing year-to-date due to a lack of evidence-based program providers.

There is no waiting list for home delivered meals, although providing only 1 meal x 5 days per week falls short of a 7-day program by 27,040 meals (annualized).

SERVING LOW-INCOME MINORITY OBJECTIVES

With respect to the previous federal fiscal year, provide the following information:

Number of low-income minority individuals in the service area: 286
Describe the methods and objectives used to address their service needs.
Multiple public information and education outreach events in all 8 jurisdictions serving PSA 4 included elder abuse prevention, resource information and assistance, and ombudsman services. At least 10,000 publication units per year are broadly distributed including topics such as healthy living, home repair/modifications, Medicaid/Medicare information, and senior housing resources. All incoming calls are answered live during office hours, and our trained No Wrong Door specialists quickly respond and follow up on all requests for information and assistance. The New River Valley Agency on Aging intended to serve 100% of low-income older minority individuals in PSA 4.
Provide information on the extent to which the Area Agency on Aging met its objectives in the previous federal fiscal year to provide services to low-income minority individuals.
The PeerPlace Demographic Analysis Program Detail and Summary Report for PSA 4 reflected a higher number of low-income minority individuals served (336) than the actual Intrastate Funding Formula estimate of the number of "60+ Minority Below Poverty" residing in the area (286). It therefore appears that the AAA has been sufficiently successful in serving low-income older minority individuals.

ALIGNMENT WITH STATE PLAN GOALS

The <u>State Plan for Aging Services</u> (State Plan) establishes five goals for aging services in Virginia. Area Plans must be informed by the State Plan and align with the goals established:

☑ Unless otherwise stated, the Area Agency on Aging (AAA) confirms that the objectives of this Area Plan align with those in the State Plan.
☐ The AAA is creating separate goals and objectives that align with the State Plan and are outlined below:

HOW OBJECTIVES AND STRATEGIES INFORM THE AREA PLAN

Briefly describe how the unmet needs assessments, identification of populations of Greatest Economic Need (GEN) and Greatest Social Need (GSN), the State Plan for Aging Services, public participation in the development of this Area Plan, and Area Agency on Aging (AAA) Advisory Council input have informed this Area Plan.

Input from the New River Valley Agency on Aging (NRVAOA) Advisory Council has indicated concurrence with the planned programmatic and budgeting course of action contained within this plan:

- Careful planning and budgeting—including the RFP process--for nutrition services will carry forward the FY 2025 revision to provide meals to as many homebound individuals as possible without a waiting list, consistent with Goals 1 and 3 in the State Plan.
- NRVAOA will pursue more regional partnerships to maximize healthy, active aging through evidence-based programs, consistent with State Plan Goal 2.
- NRVAOA will continue to maximize outreach to low-income minority individuals, consistent with Goal 3 in the State Plan.
- Staffing reassignments and signature outreach/events will reinforce person-centered services and promote awareness and availability of long-term supports in the region, consistent with Goal 4 of the State Plan.
- The assessment of unmet needs will lead NRVAOA to project available subcontractor service delivery much more conservatively for homemaker and other respite. Consistent with Goal 5 of the State Plan, NRVAOA will increase focus on developing caregiver supports through public information/education, CRIA, and partnerships that facilitate transportation, caregiver support groups and education within

FUNDING WITHIN THE PLANNING AND SERVICE AREA

For Area Agencies on Aging (AAA) that serve more than one locality (i.e. city or county) in Virginia:

Describe plans for how funding will be distributed <u>within</u> the planning and service area (PSA) in order to address populations of Great Economic Need (GEN) and Greatest Social Need (GSN).

Although local funding support varies among the PSA 4 jurisdictions, it is aggregated so that it is distributed equitably throughout the service area. The greatest portion of the area is rural; therefore, much emphasis is placed on mobility management and transportation resources as available to support programs and services.

The home visit and assessment process, outreach for public information/education, home delivered meals, etc. are all delivered without regard for geography or proximity to the central office. NRVAOA operates six "friendship cafes" throughout the region, as well, in order to maximize access to congregate nutrition and focal points of service.

NRVAOA strives to provide services without waiting lists in order to meet GEN and GSN priorities. Where there are waiting lists, prioritization is only based on the order in which referrals are received, ADLs and other documented service level needs, and the availability of subcontracted service providers.

SERVICE COORDINATION

The Older Americans Act details information that the Area Agency on Aging (AAA) must provide related to carrying out certain requirements within the Act. This section asks for information based on specific assurances contained within the Act that must be addressed by the AAA in its Area Plan.

Describe how the AAA coordinates with mental health service organizations and agencies to increase public awareness of mental health disorders and remove barriers to diagnosis and treatment **for older adults**.

Through CRIA, the NRVAOA-No Wrong Door team provides information about the community services board and assistance with contact information for individuals seeking services. In addition, NRVAOA works closely with the local CSB transportation and mobility management unit as a partner in the Opioid Abatement Authority grant program providing transportation resources to individuals in recovery and/or those at risk for substance use disorders. Another service coordination point would be the person-centered options counseling program that often identifies additional service needs and follow up plans for individuals who may need behavioral health services.

Describe how the AAA coordinates with the Virginia Assistive Technology System (VATS), the state assistive technology entity, to increase access to assistive technology options for older individuals.

Assistive technology devices have been promoted and demonstrated through the NRVAOA annual caregivers confences. Information regarding VATS resources can be accessed through CRIA, and the agency plans to increase coordination with VATS to raise awareness of these resources for individuals and their caregivers.

EMERGENCY PREPAREDNESS

Describe the Area Agency on Aging's (AAA) efforts to coordinate activities and develop long-term emergency preparedness plans with local and state emergency response agencies, relief organizations, and other institutions involved in disaster relief.

The NRVAOA – COOP Plan was last revised and approved on 12/14/2021 and specifies:

- Notifications
- Emergency Meeting Protocol
- Continuation of Operations
- Donations
- Permanent Location
- Media Relations
- Sample Press Release
- Emergency Situations
- Home Delivered Meals
- Listing of New River Valley Emergency Coordinators

NRVAOA maintains contact with local emergency coordinators and requests inclusion in pre-disaster briefings and recovery operations. The agency will assist with taking applications for assistance, provide transportation, and continue service operations to the extent possible. Staff will reach out to check on the well-being of older adults in the service area and attempt to determine immediate needs. Staff will follow up with local emergency coordinators as needed. The agency provides information to older adults annually regarding emergency preparedness and in advance of forecasted severe weather events.

SERVING OLDER NATIVE AMERICANS

For Area Agencies on Aging (AAA) that have an Older Americans Act (OAA) Title VI Grantee in the planning and service area (PSA):
Describe the coordination efforts between the AAA and the Tribal Organizations on
outreach activities to inform older Native Americans about OAA services and increase

service access and provision. Revised March 2025 16

SERVICES TO BE PROVIDED:

Nutrition Education

Indicate which programs the Area Agency on Aging (AAA) provides with Older Americans Act (OAA) funding by checking the corresponding boxes under Title III Funding Source or with state funding by checking the corresponding box under State General Funds (GF). The funding sources indicated on this page should align with the Area Plan Budget that is submitted to DARS. Not all sources listed on the Area Plan budget, such as fees and voluntary contributions are included on this page. Some services can only be funded with specific titles of the OAA or with State General Fund (GF); shaded sections in this table indicate a specific program cannot be funded with

that specific source. Some required services have been pre-checked. Programs or services marked

with OAA funding on this page must have a corresponding service page in Part 3.

Area Plans must incorporate services which address incidents of hunger, food insecurity, and malnutrition; social isolation and physical and mental health conditions. Briefly describe which services the Area Agency on Aging (AAA) will provide that address those.

Congregate Meals, Grab and Go Meals, Home Delivered Meals and coordination with the regional THRIVE network https://cfnrv.org/thrive-food-access-network/ all address hunger, food insecurity, and malnutrition. Social isolation is addressed through the services listed above in addition to Aging & Disability Support Services plus transportation coordination. Mental health conditions may be addressed through CRIA connections as well as person-centered options counseling.

Area Plans, to the extent feasible, must provide for the furnishing of services under the Older Americans Act (OAA) through self-direction. List the relevant services the AAA will provide through self-direction, if any. If none, indicate that.

Complete this section for all other services that the Area Agency on Aging (AAA) provides that are not funded through the Older Americans Act (OAA) Title III. Programs and services marked on this page must have a corresponding service page completed in Part 6. If additional service pages are needed for this section, they can be found on the VDA Providers Portal.

WAIVER REQUESTS

MINIMUM ADEQUATE PROPORTION WAIVER

As permitted by the Older Americans Act (OAA), the Virginia Department for Aging and Rehabilitative Services (DARS) may waive the Minimum Adequate Proportion (MAP) requirement described in 22VAC30-60-100 A through C for any category of services described in 22VAC30-60-100 if the Area Agency on Aging (AAA) demonstrates to DARS that services being provided in such category in the planning and service area (PSA) are sufficient to meet the need for such services.

Public Hearing Requirement for MAP Waiver Requests:

Before an Area Agency on Aging (AAA) requests a MAP Waiver, it must conduct a public hearing as follows:

- 1. The AAA must notify all interested parties about the public hearing.
- 2. Interested individuals must be given an opportunity to provide input at the public hearing.
- 3. The AAA must accept written comments from interested parties for 30 days
- 4. The AAA must submit a complete record of the public comments along with the MAP Waiver request to DARS.

Indicate which service category a MAP Waiver is requested:

15% Access Services – defined by the OAA, Section 306(a)(2)(A) as care coordination, communication, referral, information and assistance (CRIA) and transportation.
5% In-Home Services – defined by the OAA, Section 102(30) as adult day care, checking, chore, homemaker, personal care and residential repair and renovation.
1% Legal Assistance – defined by the OAA, Section 102(33) as legal advice and representation provided by an attorney including counseling or other assistance by a paralegal or law student supervised by an attorney or counseling or representation by a nonlawyer, where permitted by law.

Public Hearing Date:
Provide justification that demonstrates support for this MAP Waiver request. Submit a complete record of the public comments and any supporting documentation for review:
Paritied March 2025

COST SHARING WAIVER

As permitted by Section 315(a) of the Older Americans Act (OAA), the Virginia Department for Aging and Rehabilitative Services (DARS) is permitted to implement cost sharing for all services funded by the OAA by recipients of the services except for the following which is not permitted by the OAA:

- 1. Communication, Referral, Information and Assistance (CRIA), Outreach/Public Information and Education (PIE), Care Coordination
- 2. Ombudsman, Elder Abuse Prevention, Legal Assistance, or other consumer protection services
- 3. Congregate and Home Delivered Meals
- 4. Any services delivered through tribal organizations

An Area Agency on Aging (AAA) can request a waiver to the DARS cost sharing policy and receive approval if the AAA can adequately demonstrate that –

- 1. a significant proportion of persons receiving services under the OAA have incomes below the threshold established in DARS policy; or
- 2. cost sharing would be an unreasonable administrative or financial burden upon the AAA.

As required in the Virginia Appropriation Act, DARS cannot waive cost sharing for programs provided solely with state general funds that are not used as OAA match funds. It is the intent of the Virginia General Assembly that state general funds continue to be subject to a cost sharing program.

Th	The Area Agency on Aging requests a Cost Sharing Waiver:					
	For all services allowed by the OAA					
X	For one or more specific services identified below					

Using the space below: (1) identify the specific services the AAA is requesting a Cost Sharing Waiver for, if applicable; and (2) provide the reason(s) for the Cost Sharing Waiver request, including a detailed explanation that adequately demonstrates the need for a Cost Sharing Waiver. Submit any supporting documentation for review.

Homemaker

Respite

Disease Prevention/Health Promotion

A significant portion of individuals receiving these services have low income. Also the administrative burden to implement cost-sharing for these services would be unreasonable for the Agency. Admin staff schedules are already stretched with multitasking for Agency operations.

ALTERNATIVE FEE SCALE WAIVER

Area Agencies on Aging (AAAs) must adhere to the **DARS Sliding Fee Scale** in use with Older Americans Act (OAA) and state general fund cost sharing programs. If the AAA wishes to request an Alternative Fee Scale Waiver, the AAA must complete the sections below. As required by the OAA, Virginia cannot permit cost sharing by a low-income older individual if the income of such individual is at or below the federal poverty line. The AAA requests an Alternative Fee Scale Waiver State the service(s) that an Alternative Fee Scale Waiver is being requested: Provide justification and rationale for the Alternative Fee Scale Waiver request. State if it has been approved by the governing board, when that occurred and/or when the Alternative Fee Scale was last reviewed by the governing board and the current funding source for the service(s). Submit the AAA's proposed Alternative Fee Scale for review.

DIRECT SERVICE WAIVER

As required by Section 307(a)(8)(A) and 45 CFR § 1321.65(b)(7), the Area Agency on Aging (AAA) Area Plan shall provide that no supportive services, nutrition services, evidence-based disease prevention and health promotion services, or family caregiver support services will be directly provided by the AAA, unless, in the judgment of the Virginia Department for Aging and Rehabilitative Services (DARS):

- 1. provision of such services by the AAA is necessary to assure an adequate supply of such services:
- 2. such services are directly related to the AAA's administrative functions; or
- 3. such services can be provided more economically, and with comparable quality, by the AAA.

At its discretion, DARS has provided for a categorical approval for all AAAs to directly provide the supportive services of Care Coordination, Communication, Referral, Information and Assistance (CRIA), and Outreach/Public Information and Education (PIE). AAAs should indicate "Yes" under the direct service waiver portion of the service page for Care Coordination, CRIA, and PIE. No additional direct service waiver request is needed for these services.

For all other potential services, DARS will only grant approval for the AAA to provide direct services for a maximum of the Area Plan period. For each new request, the AAA must describe the AAA's efforts to identify service providers prior to a new or renewed waiver's approval.

The AAA must indicate whether it intends to provide a service directly on each service page located in Part 3: Title III Services AND complete a Direct Service Waiver for each service, except for Care Coordination, CRIA and PIE. The Waiver Forms will be included behind each applicable service in Part 3. A blank Direct Service Waiver Form is included on the next page as an example, but the Direct Service Waiver Form is also located in the VDA Providers Portal.

The following factors will be used to consider all Direct Service Waiver requests:

- 1. Necessity: If direct service provision fills a regional service gap. Documentation should include service availability, provider capacity, and geographic coverage.
- 2. Administrative Function: If the services in question are closely linked to the AAA's core administrative responsibilities.
- 3. Cost-effectiveness: Comparison of AAA service delivery versus service provider contracting, assessing efficiency and quality.

DIRECT SERVICE WAIVER FORM

The Area Agency on Aging (AAA) requests a Direct Service Waiver for:

<u> </u>		NI	-:-:-
nna	renate	1111111	ritinn
COLIG	regate	. IYUU	IUOII

Reason for the Direct Service Waiver request (check all that apply):

X	Providing services by the AAA is necessary to assure an adequate supply
X	Services are directly related to the AAA's administrative functions
X	Services can be provided more economically, and with comparable quality, by the AAA

Provide justification for this request. Include any efforts the AAA made to locate a service provider, details regarding the costs of services in the planning and service area (PSA) and any other information relevant for consideration. Include information regarding governing board review and approval. All records related to this request must be maintained for monitoring purposes.

There are no other Congregate meal service providers that provide the AAA service level for no cost other than the voluntary contributions.

PART 3: TITLE III SERVICES

OVERVIEW

Federal Older Americans Act (OAA) regulations (45 CFR § 1321.65(b)(5)) require that the Virginia Department for Aging and Rehabilitative Services (DARS) have policies and procedures regarding Area Agency on Aging (AAA) Area Plan requirements that address the following at a minimum:

The services, including a definition of each type of service; the number of individuals to be served; the type and number of units to be provided; and corresponding expenditures proposed to be provided with funds under the OAA and related local public sources under the AAA Area Plan.

This section is designed to meet the requirements outlined in federal regulations and provide an overview for each projected service the AAA intends to provide. While completing Part 3: Title III Services, refer to the appropriate DARS Service Standards, the Area Plan budget and the information provided in the AAA Area Plan Part 2: Objectives and Strategies.

Unit Type, Total Units, People Served- The unit type as defined in the service standard, number of proposed units to be provided in the plan year and number of proposed people that will be served.

Proposed Expenditure Amount, Funding Source, Match Funding- The proposed expenditure amounts and the funding source for this service and if any of the non-federal funding is being used as Match Funding for federal/OAA funds.

Locality Served- The locations where services will be provided using OAA funds (i.e. cities and/or counties). If a provider is serving all localities, indicate "**ALL**".

Service Provider(s)- The organization/entity actually providing the service whether it be subcontractors or the AAA under an approved Direct Service Waiver.

Entity Type- A service provider that is a For-Profit or Not-For-Profit organization or entity.

Definition of Service- This is a brief general description of the service. This helps explain it to the public who may be unfamiliar with OAA services. The full definition is contained within the DARS Service Standards.

Target Populations- Populations that the AAA will provide services to using OAA funds, with a specific focus on those in Greatest Economic Need (GEN) and Greatest Social Need (GSN). Summarize how the AAA will target OAA services to reach these defined populations (e.g., what action steps or activities will the AAA take to reach individuals with GEN and GSN for the OAA service).

Service Description-A detailed explanation of the service being provided. This includes overall program design and operation, staffing, assessments, program evaluation, monitoring of subcontractors and specifically how the AAA will provide it using OAA funds.

Service Definition: Homemaker services offer assistance with household tasks like meal preparation, cleaning, and light housekeeping, helping older adults maintain a comfortable and organized living space. This service is designed to support older individuals who have difficulty with activities of daily living due to physical or cognitive limitations, enabling them to live independently for longer. This service can also provide respite to family caregivers.

Target Populations:

Persons 60 and older with low-income, greatest economic need, greatest social need, risk of institutional placement, with particular attention to low-income, low-income minority, limited English proficiency, and residing in rural areas. (OAA Section 306(a)(1)).

Homemaker service will be provided to persons sixty years or older needing assistance with tasks such as light housekeeping, shopping, errands and meal preparation. Homemaker services are targeted to persons 60 years of age or older who are frail, have disabilities, or who are at risk of institutional placement. Priority will be given to persons who are in the greatest economic or social need and/or residing in rural or geographically isolated areas, with particular attention to low-income minority individuals. The goal of Homemaker Services is to assist clients in tasks that will enable them to live in their homes safely, with as much independence as possible and to prevent or delay premature institutionalization.

Caregivers who are informal providers of in-home and community care to an individual who is 60 or

Service Description:

Homemaker services provide assistance to persons with the inability to perform one or more of the following activities of daily living: preparing meals, shopping for personal items, managing money, using the telephone or doing light housework. Homemaker services may also servce as respite for informal caregivers.

With each individual who requests Homemaker Services, Agency on Aging staff will conduct an in-home assessment, utilizing Part A of the Uniform Assessment Instrument, to determine if eligibility criteria is met, what the specific needs are, and the level of priority. A Virginia Caregiver Service form will also be completed if a caregiver is involved. A screening will be performed to determine if the client will be responsible for cost sharing. If the individual is responsible for cost sharing, they will be given a copy of a signed agreement stating their cost sharing amount. A care plan will be devised with individual's and/or caregiver's input to identify service needs, specify what services will be provided, and the number of service units to be provided. The Aging & Disability Services Supervisor will complete and explain to individuals and/or caregivers, the Service Agreement. The Service Agreement shall include services to be provided, scheduled hours and days of service, information regarding voluntary contributions, emergency contacts and the severe weather policy. A copy of the Service Agreement will be provided to individuals and/or their caregivers. Homemaker tasks will be performed by sub-contractors. The Aging & Disability Services Supervisor shall conduct monitoring of the sub-contractors annually. Monitoring shall include program compliance, service delivery review, administrative review and quality assurance. A written copy of the monitoring report shall be maintained by the agency. Anonymous client surveys shall be conducted annually. A file of annual anonymous surveys with a summary of the surveys shall be maintained by the agency. A reassessment of the individual's need for services, the amount of services provided and the appropriateness of the care plan shall be performed by staff when the client's condition or situation changes, but at least annually.

Service Definition: Care transitions refer to the process of moving a patient from one care setting to another, such as from a hospital to home, from a nursing home to outpatient care, or between different healthcare providers. The goal is to ensure continuity of care, minimize the risk of complications, and improve the quality of life during these transitions, especially for older adults who may have complex health conditions. The goal of care transitions is to ensure a smooth, safe, and effective move between different levels or types of care, preventing avoidable hospital readmissions, improving health outcomes, and promoting independence and well-being.

Service Definition: Communication, Referral, Information and Assistance are activities that provide general information to older individuals, caregivers, or professionals, such as giving contact details for services, informing individuals about appropriate services and connecting them with external resources, and assessing individual service needs and directly linking them to services or supports provided by the agency or subcontractors.

Target Populations:

Caregivers who are informal providers of in-home and community care to an individual who is 60 or older or an individual who is less than 60 and has a diagnosis of early onset dementia. Grandparents or relative caregivers (related by blood, marriage or adoption), 55 or older, who provide informal care to a child not more than 18 or an individual 19-59 who has a severe disability. (OAA Section 373(c)(2)).

Caregivers of individuals age 60 and older or caregivers of persons with disabilities, grandparents raising grandchildren or other individuals providing kinship care of a child younger than age 18 are also eligible for Public Information/Education services. Families, friends and referral sources may also receive resource information. Persons 60 and older with low-income, greatest economic need, greatest social need, risk of institutional placement, with particular attention to low-income, low-income minority, limited English proficiency, and residing in rural areas. (OAA Section 306(a) (1)).

Individuals age 60 and older or persons with disabilities are eligible for Public Information/Education services. Preference shall be given to older persons with greatest economic need or older persons with greatest social need, with preference given to low-income minority individuals, and to those older persons residing in rural or geographically isolated areas. Providing III-B Service?

Service Description:
The Agency on Aging will inform older persons, their caregivers and the general public of available opportunities, services, resources, issues and problems relevant to aging, disabilities and caregiving. This will be accomplished by preparing and distributing resource information, utilizing brochures and fact sheets, social networking and media and e-mail distribution; making presentations to community groups and organizations; managing resource booths at health fairs and other community events and meetings; and preparing and distributing media releases and public
service announcements.
Units of service (contacts) will be tracked by aggregating number of attendees at presentations and number of publications distributed. The overall effectiveness

Service Definition: Transportation is the provision of a means for individuals to travel from one location to another. This service is available to older individuals who are unable to transport themselves or are unwilling due to safety concerns and lack other means of transportation. The service is focused solely on providing transportation and does not include any additional activities.

Target Populations:

Persons 60 and older with low-income, greatest economic need, greatest social need, risk of institutional placement, with particular attention to low-income, low-income minority, limited English proficiency, and residing in rural areas. (OAA Section 306(a)(1)).

Transportation services are targeted to persons age 60 or older who cannot transport themselves and do not have other alternatives to provide their transportation. Priority is given to individuals with the greatest social or economic needs and to those older persons residing in rural or geographically isolated areas. Special attention is given to low-income minority individuals. Transportation service is provided to reduce isolation and provide access to needed services.

Caregivers who are informal providers of in-home and community care to an individual who is 60 or older or an individual who is less than 60 and has a diagnosis of early onset dementia. Grandparents or relative caregivers (related by blood, marriage or adoption), 55 or older, who provide informal care to a child not more than 18 or an individual 19-59 who has a severe disability. (OAA Section 373(c)(2)).

Service Description:

The Agency will focus on providing as feasible, non-emergency medical transportation within the Agency's service area which covers the 4th planning district, transportation to local congregate meal sites and shopping for congregate nutrition clients. A brief assessment using the uniform assessment instrument will be completed on each individual requesting transportation to determine if eligibility criteria is met, what the specific needs are and the level of priority of need for the service. Eligibility criteria include: individual is at least age 60, individual cannot drive and lacks other modes of transport by self, community support group or public transportation, whether the individual has significant economic or social need, and whether individual requires any special assistance. If an individual requesting medical transportation is eligible for the service, they will be screened to determine whether they have a cost-sharing responsibility. If the client is responsible for cost sharing, they will be given a copy of a signed agreement stating their cost sharing amount. A reassessment determining the client's level of needfor the service shall be done at least annually. Transportation will be performed by a sub-contractor. The Agency on Aging shall conduct monitoring of the sub-contractor annually. Monitoring shall include program compliance, service delivery review, administrative review and quality assurance. A written copy of the monitoring report shall be maintained by the agency.

Anonymous client surveys shall be conducted annually. A file of annual anonymous client surveys with a summary of the surveys shall be maintained by the agency. Sub-contractors shall be monitored annually. Monitoring shall include: safety policies, administrative elements, maintenance, insurance, vehicle accidents and quailty assurance.

Type 1: AAA contracts with a Legal Aid Program funded by Legal Services Corporation (LSC)

Service Definition: Legal Assistance provides legal advice and representation to older individuals with economic or social needs. This service can include counseling or support from paralegals or law students under an attorney's supervision, and representation by non-lawyers, where permitted by law. In Virginia, it also includes outreach to those with the greatest social or economic need, as well as education, group presentations, and training aimed at protecting the legal rights of older adults, utilizing materials developed under an attorney's supervision.

Target Populations:

Persons 60 and older with low-income, greatest economic need, greatest social need, risk of institutional placement, with particular attention to low-income, low-income minority, limited English proficiency, and residing in rural areas. (OAA Section 306(a)(1)).

Priority for Legal Assistance services will be given to older individuals with greatest economic need; with greatest social need; at risk for institutional placement; with limited English proficiency; low-income minority older individuals; and those residing in rural areas. Residents of long-term care facilities will also be targeted for legal assistance.

Type 2: AAA contracts with a Legal Aid Program not funded by LSC

Type 3: AAA has an attorney on staff

Type 4: AAA contracts with a private attorney

Type 5: AAA contracts with a Law School Clinical Program

Service Description:
Service Description: Individuals with legal assistance needs will be referred to Southwest Virginia Legal Aid Society, Inc. (SWVLAS). Persons with sufficient resources will be encouraged to consult a private attorney of their choosing. Staff at SWVLAS will perform a short screening on all individuals age 60 and above to determine the type of legal assistance needed and to obtain demographic and financial data. Legal assistance will be provided for individuals at 200% or less of the federal poverty level and primarily for those needing protection of income, housing and personal safety. Individuals requesting assistance with powers of attorney and advanced directives will be provided appropriate forms. A one-time event will be held for individuals needing assistance with power of attorney, advanced directives, simple wills, etc., utilizing attorneys from SWVLAS. Efforts will be made by both the Agency on Aging and SWVLAS to provide advocacy, outreach and community education on critical legal issues affecting the most vulnerable older adults. SWVLAS shall conduct regular satisfaction surveys of the persons served and the impact of the service. SWVLAS will report satisfaction survey results to the Agency on Aging on a quarterly basis.

Service Definition: Outreach/Public Information and Education provides information to older adults and the public about available programs, services, and resources for older adults and their caregivers. This includes reaching out to groups of older adults that may or may not be receiving services. The service may also involve creating special campaigns to raise awareness about issues and benefits important to older people.

Target Populations:

Caregivers who are informal providers of in-home and community care to an individual who is 60 or older or an individual who is less than 60 and has a diagnosis of early onset dementia. Grandparents or relative caregivers (related by blood, marriage or adoption), 55 or older, who provide informal care to a child not more than 18 or an individual 19-59 who has a severe disability. (OAA Section 373(c)(2)).

Caregivers of individuals age 60 and older or caregivers of persons with disabilites, grandparents raising grandchildren or other individuals providing kinship care of a child younger than age 18 are also eligible for Public Information/Education services. Families, friends and referral sources may also receive resource information.

Service Description:	
The Agency on Aging will inform older persons, their caregivers and the general publi opportunities, services, resources, issues and problems relevent to aging, disabilities at This will be accomplished by preparing and distributing resource information, utilizing fact sheets, social networking and media and e-mail distribution; making presentation community groups and organizations; managing resource booths at health fairs and community events and meetings; and preparing and distributing media releases and prepared to the preparation of the property o	and caregiving. brochures and s to other
announcements. Units of service (contacts) will be tracked by aggregating number of attendees at presnumber of publications distributed. The overall effectiveness of the program will be expected back, either written or verbal, as appropriate.

Total Congregate Meal Sites:				

Service Definition: Congregate nutrition services provide nutritious meals to older adults at senior centers or other group settings, ensuring that meals meet the latest dietary guidelines. These meals are designed to support the health and well-being of older adults, with adjustments made for any special dietary needs. In addition to providing balanced nutrition, congregate nutrition sites offer opportunities for socialization and recreation, helping to reduce isolation and foster a sense of community.

Target Populations:

Persons 60 and older with low-income, greatest economic need, greatest social need, risk of institutional placement, with particular attention to low-income, low-income minority, limited English proficiency, and residing in rural areas. (OAA Section 306(a)(1)).

Congregate Nutrition will be provided to persons 60 years of age and older and their spouses regardless of age, with priority given to those persons in greatest social or economic need. Preference will be given to low-income minority individuals and to those older persons residing in rural or geographically isolated areas. Individuals with disabilities, regardless of age, who reside with an eligible older person, may accompany them to receive congregate nutrition. Disabled persons under 60 years of age who reside in a housing facility occupied primarily by the elderly may receive congregate nutrition if congregate meals are provided at the facility. Volunteers, regardless Does the AAA provide emergency meals, in the event of unexpected closure of a congregate site?

X Yes No If yes, ensure completion of the Grab and Go service pages.

Meal	Pre	paration	า and	Service:
------	-----	----------	-------	----------

Sub-contractor, New River Valley Senior Services, Inc. picks up frozen meals at the Agency office and delivers them to the Congregate Meals Sites.

Meal menus are created and monitored by a Registered Dietician, employed by meal's vendor Performance Food Services. The Registered Dietician is responsible for complying to the nutritional standards required by the Older American's Act and DARS Service Standards. Eligible individuals will receive a meal provided at least 2 days per week (Tuesday, Thursday) at nutrition sites located

Efforts to provide innovative/modernized congregate nutrition services:

In addition to providing a meal that meets nutritional requirements, programming will be provided at each site to promote health and better nutrition. Weekly exercise activities will also be available. Nutrition education programs are provided by the vinginia Cooperative Extension Service and local university students in dietetic and human Assessment curriculum.

For congregate nutrition clients needing additional community services or needing public benefits, the Agency on Aging will assist them in casisestine their specific needs are met. Peassessment of Nutrition Assessments, Referral and Form will be

The Uniform Assessment Instrument and buttitional Risk Assessment Form will be performed on each individual to determine if the eligibility criteria is met, what the specific needs are and the level of priority for services.

Program Evaluation for Effectiveness:

Reassessment of needs will be performed at least annually or as the client's situation changes. NRV Agency on Aging staff perform assessments, reassessments and manage nutrition sites. The program is formally evaluated annually with a written client survey. This information is used to improve the service and better meet client needs. Additionally, regular feedback from clients through direct program staff is given to the Nutrition Program Supervisor and is acted upon as

Servi	ce: Grab and Go Nutrition				
Title	III Funding Source:	X	Title III-C(1)	X	Title III-C(2)
Grab a	and Go Nutrition funded with Title III-C(1) can b	e pro	vided (check the a	pplica	able scenarios):
X	(A) During disaster or emergency situations aff	ecting	g the provision of n	utriti	on services and
X	(B) To older individuals who have an occasiona	I nee	d for such meal		

For Grab and Go Nutrition funded with Title III-C(2) only, address Grab and Go in the Home Delivered Nutrition service page. For Title III-C(1) funded Grab and Go Nutrition:

Address how Grab and Go will enhance and not diminish the congregate meals program. Describe how the agency will monitor the impact on Congregate Nutrition. Provide detailed evidence based on current participant data and program projections:

The AAA attests that it will not exceed the 25% cap on C1 funding for Grab & Go meals for the Area Plan year.

To monitor the impact on the C1 Program, the AAA will: 1) track units and expenditures provided on at least a quarterly basis to ensure the AAA does not exceed the 25% cap; 2) monitor attendance at C1 sites to ensure there are no adverse impacts (e.g., decline in attendance); 3) integrate questions about the experience with Grab & Go Meals into the AAA's satisfaction surveys for C1 participants; and 4) include Grab & Go Meals in the AAA's annual program evaluation process.

The AAA attests that it will not exceed the 25% cap on C1 funding for Grab & Go meals for the Area Plan year.

Target Populations:

The AAA will target individuals with greatest economic need (GEN) and greatest social need (GSN) for this service.

Eligibility Criteria:

Eligibility for Grab & Go using III-C(1) funds will be those individuals who qualify for the regular III-C(1) program and who are existing or active III-C(1) participants.

Address how the AAA consulted with nutrition and direct service providers, interested parties and the general public on the need for Title III-C(1) Grab and Go:
The AAA has sought public input in the development of the Area Plan, with specific notice about the Grab & Go Meal provision, through the AAA's public hearing held on June 17, 2025 and through the 30-day public comment period held on July 18, 2025. The AAA consulted with the AAA's Registered Dietitian, AAA Advisory Council, and the AAA's nutrition services provider. The AAA further sought the input of C1 participants and their families. In receiving input from these entities, the AAA noted
Service Implementation:
The grab and go meals will be a complete nutritious meal provided to clients when the regularly planned meeting can't take place. This is a new service and this section of the Area Plan is in Progress.

Service Definition: Home Delivered Meals provide eligible clients with nutritious, balanced meals delivered directly to their homes. Meals comply with the latest dietary guidelines. The service accommodates special dietary needs and ensures food safety in handling, preparation, and delivery. This service is intended for homebound individuals who are unable to leave home and attend social activities and does not have access to proper nutrition and transportation.

Target Populations:

Persons 60 and older with low-income, greatest economic need, greatest social need, risk of institutional placement, with particular attention to low-income, low-income minority, limited English proficiency, and residing in rural areas. (OAA Section 306(a)(1)).

Home delivered nutrition will be provided to persons 60 years of age and older who are restricted to their home due to health problems or disabilities, with priority given to those persons in greatest social or economic need. Particular attention will be given to low-income minority and older individuals residing in rural or geographically isolated areas. Individuals must also be unable to prepare their own nutritious meals and have no one on a consistent basis to prepare meals for them. The purpose of providing home delivered nutrition is to improve the clients' nutrition and overall well-being and to help them function as independently as possible in their own home.

Describes of ass, the species of an eligible client may also reseive a most if it hanefits the client

Тур	es of Hon	1e De	livered M	leals	Served (check	call that a	pply)):

Meal Preparation and Delivery:

A nutritionally balanced lunch will be provided to eligible individuals. Meal menus are created and monitored by a Registered Dietician employed by vendor Performance Food Services. The Registered Dietician is responsible for compliying to the nutritional standards required by the Older American's Act and DARS Services Standards. Frozen meals will be delivered every 2 weeks providing the client can safely prepare and store them. Clients who receive these infrequent meal deliveries will be contacted by telephone between deliveries to check on their well being and use of the meals. Frozen meals are purchased from Performance Food Services. Frozen meals are delivered by New River Valley Senior Services, Inc.

Emergency Meal Provision- Type and Frequency:

Shelf stable meals are provided to clients that have no food until a regular delivery of frozen can be made. In the event a client is hospitalized and misses a frozen delivery a shelf stable meal may be provided in order to keep the client in the area on the scheduled delivery date.

Nutrition Assessments, Referral and Screening Information:

An in-home assessment will be performed on each individual requesting home delivered nutrition. The Uniform Assessment Instrument and the Nutrition Risk Assessment will be used to determine if the eligibility criteria is met, what the specific needs are, and the level of priority of service.

Program Evaluation of Effectiveness:

The program is formally evaluated annually with a written client survey. This information is used to improve the service and better meet client needs. Additionally, regular feedback from clients through direct program staff is given to the Nutrition Program Supervisor and is acted upon as appropriate.

Vendor or Subcontractor Monitoring Process and Frequency:
Service Description:

HOME DELIVERED MEALS INFREQUENT DELIVERY WAIVER

Section 336 of the Older American Act establishes "nutrition projects for older individuals that provide—on 5 or more days a week (except in rural areas where such a frequency is not feasible and a lesser frequency is approved by the State agency) at least 1 home delivered meal per day, which may consist of hot, cold, frozen, dried, canned, or fresh foods and, as appropriate, supplemental foods and any additional meals that [the Area Agency on Aging] elects to provide."

An essential component of the Home Delivered Meal (HDM) program is the social interaction and well-being check that naturally occurs during meal delivery. Within the broader aging network, there are concerns that this vital aspect of the HDM program may be lost when bulk meals are delivered less frequently, particularly in rural areas where participants are often isolated or vulnerable, and/or they may lack other sources of contact. Further, there is also a concern that commercial carriers, like FedEx or UPS, whose primary focus is on package delivery, are not designed to address the social, safety, nutritional, or functional needs of HDM participants. While there are financial constraints that also impact HDM programs, especially in rural areas, commercial delivery of home delivered meals should really only be reserved for the small percentage of participants who are geographically isolated and cannot be reached by regular HDM routes, if applicable.

Not all Area Agencies on Aging (AAAs) are eligible to request a Home Delivered Meals Infrequent Delivery (HDM-ID) Waiver. Agencies eligible to request a HDM-ID Waiver must have at least 50 percent or more of the localities within their planning and service area (PSA) defined as "rural" using the same definition provided in the State Plan for Aging Services Intrastate Funding Formula (IFF).

Eligible AAAs that deliver meals less than weekly to 25 percent or more of their total HDM participants due to feasibility constraints must, in cooperation with any service provider(s), develop and submit a HDM-ID Waiver for DARS review and approval through the Area Plan.

The HDM-ID Waiver must be submitted for review and approval prior to the AAA reducing their delivery frequency to less than weekly and must be updated when significant changes are made to the Area Plan.

Waiver Validity and Expiration: Provided there are no concerns with an AAA's implementation of an approved HDM-ID Waiver, DARS will consider approved HDM-ID Waivers to be valid for the duration of the Area Plan Cycle. Annually, DARS will review rural locality designations during the IFF process to determine if an AAA with an existing HDM-ID Waiver will need to submit a HDM-ID Transition Plan to discontinue its HDM-ID program prior to the start of the next Area Plan Cycle. AAAs that lose their rural qualification for a HDM-ID Waiver in Year 4 of an Area Plan Cycle will have 1 additional FFY (i.e., Year 1 of the new Area Plan Cycle) to continue operating its HDM-ID program, however, the AAA must be in compliance with the HDM requirements by Year 2 of the new Area Plan Cycle.

Service Definition: Health Education and Screening services are designed to promote the well-being of older adults by providing essential information and assessments to support their health needs. Health education offers targeted information or materials on age-related diseases, chronic conditions, prevention, self-care, and independence, focusing on prevention, diagnosis, treatment, and rehabilitation. Health screening services include comprehensive assessments to determine an individual's current health status, aiming to detect or prevent common illnesses in older adults. These services may also include counseling, follow-up, and referrals to ensure optimal care and support for the individual's health and wellness.

Service Definition: Support Groups provide a supportive environment for caregivers to connect, share experiences, and receive emotional support. Facilitated by a trained professional, these groups offer a space to discuss caregiving challenges, share coping strategies, and gain practical advice from others in similar situations. The goal is to reduce caregiver stress, prevent burnout, and promote emotional well-being through peer support and community resources.

Service Definition: Caregiver Training provides caregivers with the knowledge and skills needed to deliver effective care. This service covers essential topics such as managing medical conditions, assisting with daily activities, understanding safety protocols, communication techniques, and coping with the emotional challenges of caregiving. Delivered by healthcare professionals or trained instructors, the training aims to enhance the caregiver's confidence, competency, and ability to provide high-quality care while promoting their own well-being.

Service Definition: Institutional Respite is a type of respite care that is provided in a specialized facility or institution, rather than in the home or community setting. This form of respite care allows caregivers to temporarily place their loved one in a residential care facility where trained staff provide supervision, assistance with daily activities, and healthcare support. The facility may be a nursing home or a dedicated respite care facility.

Service Definition: Elder Abuse Prevention aims to protect older adults from abuse, neglect, and exploitation through education, early intervention, and support. These services include raising awareness, providing counseling, safety assessments, and facilitating community partnerships to ensure a coordinated response.

Target Populations:

Elder abuse prevention services shall be targeted to aid persons age 60 and older and incapacitated adults age 18 and older, who are at risk of abuse, neglect, and/or exploitation and who may have limited ability to care for themselves. Families and/or caregivers of an older individual may also be provided services to assist them in locating and accessing appropriate care services. The purpose of Elder Abuse Prevention Services is to increase awareness of adult abuse, neglect, and exploitation; to encourage and assist persons in making appropriate referrals for interventions; and to address situations that endanger the health, safety, and well-being of older and disabled adults.

GROUP 9: LONG-TERM CARE OMBUDSMAN

Ser	Service: Long-Term Care Ombudsman Program								
	Service Details (Indicate how the AAA ensures ombudsman coverage):								
X	The AAA operates this service for this PSA only.								
The AAA arranges for another AAA to provide this service for this jurisdiction.									
	(If this is the case, forego the remainder of this service page after naming the AAA below.)								
Ide	ntify the other AAA contracted to provide this service:								
	The AAA provides this service for one or more other PSAs.								
Ide	ntify the other PSA(s) for which the agency provides								

this service:

Proposed Expenditure Amount	Funding Source
\$23,394.00	Title III-B
	Title VII- Elder Abuse Prevention
\$14,956.00	Title VII-Long-term Care Ombudsman
	General Funds- OAA General
\$10,589.00	General Funds- Ombudsman
\$2,412.00	Dept. of Medical Asst. Services (DMAS) Ombudsman
	Supplemental Local or Regional Funding
\$51,351.00	Total Proposed Expenditures

In compliance with Section 306(a)(9) of the OAA, in the upcoming program year the Area Agency on Aging must expend on the Ombudsman program not less than the total amount of Title III (Section 304 (d)(1)(D) and Title VII funds expended FFY 2019.

Check this box to attest that the above statement is true:

Service Definition: The Office of the State Long-Term Care Ombudsman Program oversees a network of local program representatives that advocate for long term care recipients across multiple settings. These trained advocates work at the community (PSA) level to protect the health, safety, welfare and rights of long-term care recipients. Program representatives investigate and resolve complaints for individuals who reside in nursing facilities and assisted living facilities, and other settings where they receive community based long term services and supports. In addition, Ombudsman representatives provide information and guidance to help individuals access needed services, understand their rights, and navigate the long-term care system.

Eligible Populations: Residents of long-term care facilities. (OAA Section 711(6)); individuals who receive home and community based long-term care services through adult day centers, home care organizations, hospice providers, DBHDS, area agencies on aging and any other non-profit or proprietary agencies (Code of Virginia, § 51.5-182).

Number of long-term care beds:	1337
Number of assigned staff to program:	1
% FTE per each staff person assigned:	78

Volunteer Recruitment and Management (if applicable):
All host entities (AAAs) providing Ombudsman Program services are required to carry out specific duties (set forth in 45 CFR Part 1324 (Subpart A § 1324.17-19), which include ensuring access to conflict-free ombudsman program services; providing consumers with information and assistance regarding long-term care; investigating and resolving long-term care complaints; and appropriately documenting program activities.
In regard to these required program duties, describe 3 primary (specific) goals for your ombudsman activities this year:
1.LTCO works to investigate complaints on behalf of resident/LTC recipient; will continue initiating proactive interventions to inform residents/receipients of LTC Ombudsman program services to investigate complaints. Ombudsman will provide information regarding complaint investigation process, encourage Ombudsman interventions; target number of investigations will be approximately 25 cases annually.
2.Initiate contact with nursing facility/assisted living facility administration/staff to conduct annual (or as needed) staff training on residents' rights. Target training sessions or a minimum of seven nursing facilities and seven assisted living facilities annually
3. Continue community education, staff in-service trainings, consultations, presentations to provide resources and information regarding LTC options, resident's rights and protections for quality care.

Service Definition: Care coordination services refer to the process of organizing and managing various healthcare, social, and support services to meet the needs of older individuals and their caregivers, ensuring they receive the right care at the right time. This service is particularly important for older adults who often have multiple chronic conditions, complex health needs, or face challenges in accessing appropriate care. Care coordination is designed to improve the quality of care, reduce duplication of services and enhance the overall well-being of older adults by providing holistic, seamless support.

Service Definition: Care coordination services refer to the process of organizing and managing various healthcare, social, and support services to meet the needs of older individuals and their caregivers, ensuring they receive the right care at the right time. This service is particularly important for older adults who often have multiple chronic conditions, complex health needs, or face challenges in accessing appropriate care. Care coordination is designed to improve the quality of care, reduce duplication of services and enhance the overall well-being of older adults by providing holistic, seamless support.

Target Populations:

The target population for Service Coordination 1 will be individuals 60 years of age and older who have been determined to have 1 or more dependencies in activities of daily living, such as bathing, dressing, eating, toileting or continence. In addition, the individual must have either a mobility dependency (either human or mechanical) or diagnosed with a cognitive impairment, such as Alzheimer's Disease or a related disorder. Such persons shall also be unable to maintain independent living and self-sufficiency in their community due to the inability to define, locate, secure or retain the necessary resources and services of multiple providers on an on-going basis.

Service Description:
A Care Coordinator will conduct a full UAI assessment prior to provision of any service coordination. Once client is enrolled into Service Coordination Level One, the Care Coordinator will provide assistance, either in the form of accessing needed services, benefits, and/or resources or arranging, in circumstances where the older person and/or their caregivers are experiencing diminished functioning capacities, personal conditions or other characteristics, as well as the needed services by providers.
A Care Coordinator will investigate a person's needs, preferences and resources, link the person to a full range of appropriate services and supports, using all available funding sources, and then monitor to ensure that services specified in the support plan are being provided.

Service Definition: Person-Centered Options Counseling is an interactive decision-support process that helps individuals make informed choices about long-term services and supports. The individual, or their legal representative, directs the process with the option to include others they choose. The individual remains actively involved throughout the entire Options Counseling process, ensuring their preferences and needs are prioritized in the decision-making.

Target Populations:

Options Counseling will be provided to all individuals age 18 and over with a disability and adults age 60 and over who request long-term care supports and/or who are planning for the future regarding long-term care supports.

The following situational elements that can trigger Options Counseling include, but are not limited to: a life altering personal event or situation; a significant change in the individual's circumstances; concerns expressed by the individual or the individual's family member or surragote decision maker; a life transition; a referral or self- referral to Options Counseling and/or availability of new benefits and supports.

Service Description:

The Options Counselor will contact the individual to discuss individual's current circumstances. If the Options Counselor determines that further consultation is required, they will schedule a visit with the individual within 10 working days of the assessment. During the visit, the Options Counselor will assist with the action plan.

The Options Counselor will arrange for delivery of the supports chosen by an individual as a result of Options Counseling, involving others as needed to get the supports fully in place by assisting with referrals and conducting follow up to assure referrals are in place and adequate for the individual's support.

The Options Counselor will assist the individual to make an effective transition to the supports that the individual has chosen by contacting the individual and conducting other follow-up as necessary to verify referrals made; determining whether the referrals were implemented effectively; and if adjustments are needed, supporting the individual in determining the best alternative course of action.

Options Counselors will document each contact made with client, caregivers, family members, or service providers.

Once supports are in place, the Options Counselor will follow up to determine the extent to which the individual's goals have been met using a uniform instrument, administered in the method or mode of communication that the individual uses and prefers, to measure individuals' satisfaction with the Options Counseling process and the choices the individual has made. The evaluation survey shall be issued within 30 days of the completion of Options Counseling.

Only complete this page if no Title III funding is budgeted for Care Transitions. If Title III funding is used, complete the Care Transitions Service page under Group 2: Access instead.

Service Definition: Care transitions refer to the process of moving a patient from one care setting to another, such as from a hospital to home, from a nursing home to outpatient care, or between different healthcare providers. The goal is to ensure continuity of care, minimize the risk of complications, and improve the quality of life during these transitions, especially for older adults who may have complex health conditions. The goal of care transitions is to ensure a smooth, safe, and effective move between different levels or types of care, preventing avoidable hospital readmissions, improving health outcomes, and promoting independence and well-being.
